JANUARY 1, 2023 WATER RATE INCREASE NOTICE

Effective January 1, 2023 the water basis rate for quarterly use of 8,000/gals.

The new basic rate for 2023 will increase from **\$125 to \$135** per quarter for up to 8,000 of usage. Maintenance costs have continued to climb and there are currently 4 Capital projects in process as well to improve service and supply.

The Aspers North and Prospect St. waterline replacement project will commence in the first quarter of 2023. A secondary well has also been constructed and permitted. There are plans to drill for another well in the Spring.

Rates are designed to recover costs for collection and treatment of wastewaters; funding infrastructure projects; maintaining adequate reserves for emergency repairs and system/capital upgrades.

The 2023 rate adjustment is based upon a cost-of-service analysis to ensure that each utility customer pays their proportionate share of the costs to provide service while continuing to keep up with inflation.

The increase will be reflected on your April 1st, 2023 statement (1st Quarter service). If you have any questions about the rate changes, please contact Possum Valley at 717-677-8551.
